Profile

As a recent graduate with a strong foundation in information technology, I am eager to jump-start my career by pursuing an IT internship within your esteemed organization. Equipped with a solid understanding of IT principles, hands-on experience through academic projects, and a keen interest in the ever-evolving tech landscape, I am excited to contribute my enthusiasm, dedication, and problem-solving abilities to support your company's technological needs.

Relevant Coursework and Projects:

IT Systems Analysis and Design Project
Collaborated with classmates to develop a comprehensive IT system, improving efficiency and user experience for a fictional organization.

Web and Mobile Application Development Project
Designed and developed a user-friendly mobile app as part of a team, showcasing creativity and technical skills in application development.

Education

Bachelor of Science in Information Technology, Forward-Thinking Tech University
2019 — April 2023
Graduated with an impressive academic record and participated in various IT-related extracurricular activities to strengthen technical skills.

Hobbies

Coding Challenges: Participating in online coding competitions and hackathons to improve programming skills and collaborate with fellow tech enthusiasts.

Building Custom PCs: Assembling and customizing personal computers, staying up-to-date with the latest hardware advancements, and understanding system compatibility.

Gaming and Game Development: Engaging in video games, analyzing design and mechanics, and exploring game development platforms to foster creativity and technical acumen.
